

Third Grade Curriculum Notes

My Philosophy of Education

Inquiry and experiential based learning are at the heart of my philosophy of education. Hands on experiences cultivate children's natural curiosity.

On Curriculum and Assessment

Implementing research-based developmentally appropriate curriculum results in greater child engagement and achievement.

Assessments are conducted in a variety of ways to provide a complete picture of a student's mastery of knowledge.

On Diversity and Differentiation

If classrooms can offer and support different modes of learning, it is likely that more students will learn more effectively and efficiently.
Tomlinson, 2003

Diversity is the one true thing we all have in common. Celebrate it every day

The secret lies in respecting the pupil.
Ralph Waldo Emerson
